Education

Bachelor of Engineering (B.E.) – Computer Science and Engineering

Prathyusha Engineering College, Anna University

Expected Graduation: June 2028

Skills

Python, SQL, JavaScript, Java, C/C++, Prompt Engineering, NLP, Power BI, Excel, Pandas, NumPy, React.js, HTML/CSS, Playwright, Web Scraping, Machine Learning, Deep Learning, Generative AI, LLMs, RAG, LangChain, AI Agents, Git/GitHub.

Languages

Tamil (Native) • English (Professional)

Experience

Data Analyst Intern | CodeAlpha | 2026

- Analyzed 50K+ records using Python, SQL, and Excel.
- Automated reporting workflows, reducing manual effort by 35%.
- Performed EDA and generated actionable business insights.

UI Developer Intern | Thenam Software Solutions | 2025

- Converted wireframes into responsive web applications.
- Developed reusable UI components and improved usability.

Software Developer Intern | Slesea Digital | 2025

- Built and optimized web application features using HTML, CSS, and JavaScript.
-

Certifications

- Data Analytics • Full Stack Development • Python • SQL • AI Fundamentals • Java • C • C++ • Graphic Design • Frontend Development • Microsoft Certifications • Google Certifications
-

Achievements

- Completed internships in Data Analytics, UI Development, Graphic Design, and Software Development.
 - Led academic project teams and participated in hackathons and technical events.
-

Projects

Soft Skills

- Problem Solving
- Analytical Thinking
- Team Leadership
- Time Management
- Presentation Skills
- Collaboration
- Adaptability
- Negotiation
- Communication
- Analytical Thinking
- Attention to Detail
- Data Storytelling
- Decision-Making
- Business Acumen

- **BotZone** – Multi-model AI chatbot platform with intelligent conversations and automation.
 - **ARS** – AI-powered resume screening system for smart candidate evaluation.
 - **Project Hail Mary** – Real-time anomaly detection system for predictive monitoring and alerts.
 - **IA Zone** – AI chatbot using NLP and prompt engineering.
 - **Exam Forge** – React-based online examination platform.
 - **Sentiment Analysis** – NLP-based sentiment classification using TextBlob.
 - **FIFA Dashboard** – Power BI dashboard for sports analytics.
 - **Web Scraping System** – Automated data extraction using Playwright.
-

Leadership & Responsibilities

- Led academic project teams and coordinate task execution.
- Mentored peers in web development and AI project implementation.
- Managed project planning, documentation, and presentations.
- Collaborated effectively in cross-functional internship teams.
